**Re: New Nicolet EMG V22.1.1 Software Release**

Dear Valued Customer:

We are pleased to announce the release of the Nicolet EMG version 22.1.1 software for EDX, VikingQuest, and UltraPro S100 systems. The changes within this release are a result of customer feedback and collaboration. Below are some of the high-level changes in version 22.1.1:

- Enhanced acquisition, review, and reporting.
- Enhanced networking performance.
- Enhanced HL7 implementation and workflow.
- Enhanced rotary dial and button-press responsiveness with certain systems.

Customers with version 21.0 or 22.0 software are entitled to the update to version 22.1.1 at no charge. To download this software free-of-charge, please contact our Technical Support department for further information. Please include your system configuration and serial number in any correspondence.

**Natus Technical Support Phone:** 1-800-356-0007 or 1-608-829-8500

**Natus Technical Support Email:** [MTS@natus.com](mailto:MTS@natus.com)

You may order the Nicolet EMG software as an upgrade if you have versions older than version 21 and the hardware that will support this software. Please contact your Natus Neuro Sales Representative or Customer Service Specialist for further information.

Natus Neuro is committed to developing the very best Neurodiagnostic products.

Thank you for being our healthcare partner.

Sincerely,

Marc Paliotta  
Director of Marketing – EMG
