

Trusted software. Reliable data.

HD EMG

When it comes to EMG, NCS and EP testing, the best tool is one you know you can rely on. Natus is proud to introduce the next generation of software, Natus Elite, powered by industry-leading Viking or Synergy technology. Developed in close collaboration with physicians and technologists, Natus Elite features HD EMG to help assess your patients with a greater level of certainty while keeping patient data accessible — and secure.

Natus Elite offers users:

- The highest-quality HD EMG data resolution
- Simple, customizable workflows
- Additional automated testing capabilities
- Fast, secure connection with patient electronic medical records
- Active directory integration
- On-demand technical and clinical support

Natus Nicolet EDX

Natus UltraPro S100

Powered by Viking or Synergy

natus®

Make testing, workflow and security ultra-simple.

Backed by over 60 years of clinical knowledge, physicians and technologists have come to rely on Natus technology for simplified workflows and reporting. Built to work seamlessly with Natus's UltraPro S100, Nicolet EDX and VikingQuest systems, Natus Elite delivers superior signal quality, more automated testing options, simplified administration and enhanced security.

High-definition EMG

- High-definition resolution at 4,800 points per trace for saved data in routine motor and sensory nerve conduction studies produces high-quality signals
- Unique EP data quality measures to save time and increase confidence
- Superior automated marker placement
- Includes AANEM reference values, automatically selected based on patient age, height, gender and body mass index

Simple, customizable workflows

- Customizable features and workflow patterns
- Personalized, physician-specific worklists to save time and provide convenience
- Visibility of patient visit and test status to facilitate workflow
- Frequent operations like rollback, roll forward, edit average and more, require only minimal clicks

Improved integration and security

- Fast, secure connection to patient EMRs and integration with hospital information systems, networking and remote view
- Networking and SQL database improvements for scalability, security, administrator and user profiles
- Enables facilities to use unique network username and password credentials
- Reduced security risk; immediately disabling access to Natus Elite software when credentials change

On-demand system support

- Features robust help menu for technical support assistance
- Extensive video training library for assistance with hardware, workflows, diagnostic tests, system configurations and more; also available off-site via the Neuro Training Academy. Membership is free and open to all. Join today at neuro-training.academy

Natus Support

At Natus, we strive for excellence in customer and technical service.

Here's how we can help:

- Accessible and effective technical support
- Definitive technical documentation and knowledgeable installation teams
- Optional extended warranty and service coverage programs
- Comprehensive, flexible customer training courses
