

Fast, efficient workflow meets improved patient care

The Nicolet EDX system combines state-of-the-art technology with over 60 years of proven clinical knowledge and innovation to set new standards for EMG, NCS, EP and IOM testing.

With Natus Elite™ software, powered by industry-leading Viking or Synergy technology, users can benefit from a familiar clinical workflow and user interface together with HD EMG to help assess patients with a greater level of certainty.

Advanced, innovative EMG/NCS/EP capabilities:

- Extensive clinical testing
- Intuitive controls
- Flexible amplifier options
- Unique data quality control
- Rapid response clinical workflows
- Customizable reports
- Extensive database accessibility
- Full networking, SQL database, EMR integration

Intuitively designed USB control panel

HDEMG

Flexible amplifier options from 2 to 16 channels

natus®

HD EMG

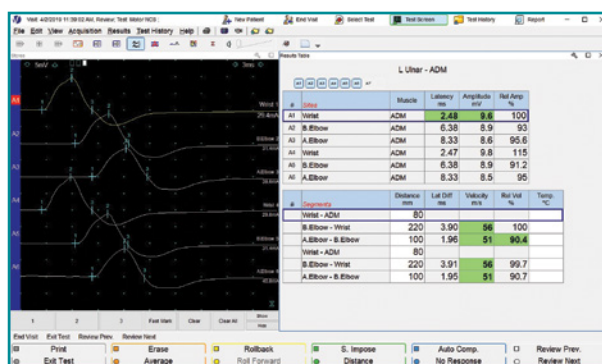

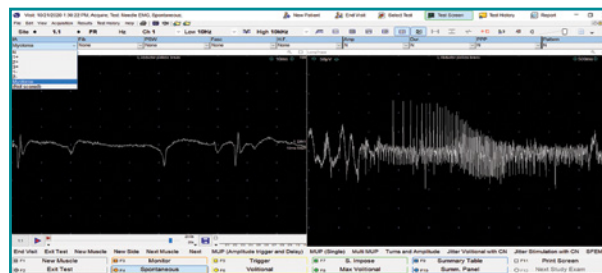

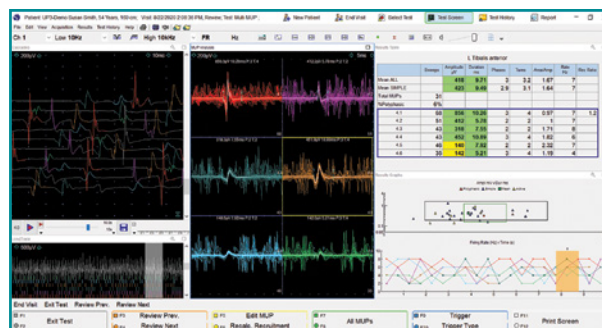

Natus Elite software

Trusted software. Reliable data.

- Built with industry-leading Natus Elite™ software powered by Viking or Synergy, with full patient and protocol compatibility with existing Natus products.
- Optimized workflows include customized patient access, automated protocols and marking, and single click operation for frequently used functions.
- Includes AANEM reference values, automatically selected based on patient age, height, gender and body mass index
- High-definition resolution at 4,800 points per trace for saved data in routine motor and sensory nerve conduction studies produces high-quality signals.
- Natus Elite software with HD EMG includes additional, automated testing capabilities and improved integration to keep patient information easily accessible – and more secure.

A Clinical Leader in Exam Options

- | | |
|--|--|
| Motor Nerve Conduction | Auditory Evoked Potentials |
| Sensory Nerve Conduction | Visual Evoked Potentials |
| Combined Sensory Index | P300/CNV |
| Combined Motor & Sensory F-Wave | IOM |
| H-Reflex | R-R Interval |
| Blink Reflex | Sympathetic Skin Response |
| Repetitive Nerve Stimulation | Galvanic Skin Response |
| Inching Studies | Intra Operative Monitoring |
| Needle EMG | CMAP Scan |
| Single Fiber EMG | MUNIX |
| Multi-MUP Analysis | Conduction Velocity Distribution |
| Turns and Amplitude Analysis Macro EMG | Triple Stimulation (Not available in US) |
| Somatosensory Evoked Potentials | Tremor Analysis (Not available in US) |

Natus support

At Natus, we strive for excellence in customer and technical service.

Here's how we can help:

- Accessible and effective Technical Support
- Definitive technical documentation and knowledgeable installation teams
- Optional extended warranty and service coverage programs
- Comprehensive, flexible customer training courses

Supplies

Convenient, complete, trusted

Natus supports the full spectrum of EMG care, providing a complete portfolio of EMG supplies for a seamless solution.

- Dedicated and knowledgeable customer support
- Streamlined order processing
- Convenient online ordering (US Customers only)
