

Neurocritical Care Educational Resource Library

Browse through our growing resource library:

- Upcoming eSeminars
- Library of recorded eSeminars
- In-service videos
- Clinical publications

The Neuro Training Academy (NTA) features a dedicated area for neurocritical care educational opportunities and resources. Our clinical experts have built a comprehensive selection of educational material that helps unlock the full potential of clinicians, technologists and staff. These materials include regularly updated on-demand training videos. View one chapter at a time or stream the entire video library.

6-Minute Synapse educational series

The 6-minute synapse series features a collection of didactic modules providing foundational to advanced education on topics such as: Principles of ICP, Lumbar Catheter Drainage and Traumatic Brain Injury. These comprehensive, didactic presentations are created by the Natus Neurocritical Care Specialist team of Certified Neuroscience Registered Nurses.
