Knowing I could watch the baby via the NICVIEW 2 camera system greatly reduced my level of anxiety. **"Having the camera is really nice. To be away from my baby but still be able to view him is wonderful. It has eased the anxiety from being away."**

Debbie, Indianapolis, IN

The NICVIEW 2 camera adds a great sense of relief and helps me manage my family schedule so I can be home with other children if needed, and still feel like I am alongside my baby.

"I love this. We live an hour away and with 2 boys, ages 4 and 6, it is hard for us to be able to get up there as often as we want. So to be able look in and see her sleeping, or blinking her little eyes trying to wake up... all of these privileges help us stay connected with our little angel. Thank you so much and God bless you all."

Families, relatives, and friends would recommend this hospital to other families because of the comfort provided by the NICVIEW 2 camera system. **"This feature should be widely advertised to the parent as an option. It would have greatly decreased my sadness."**

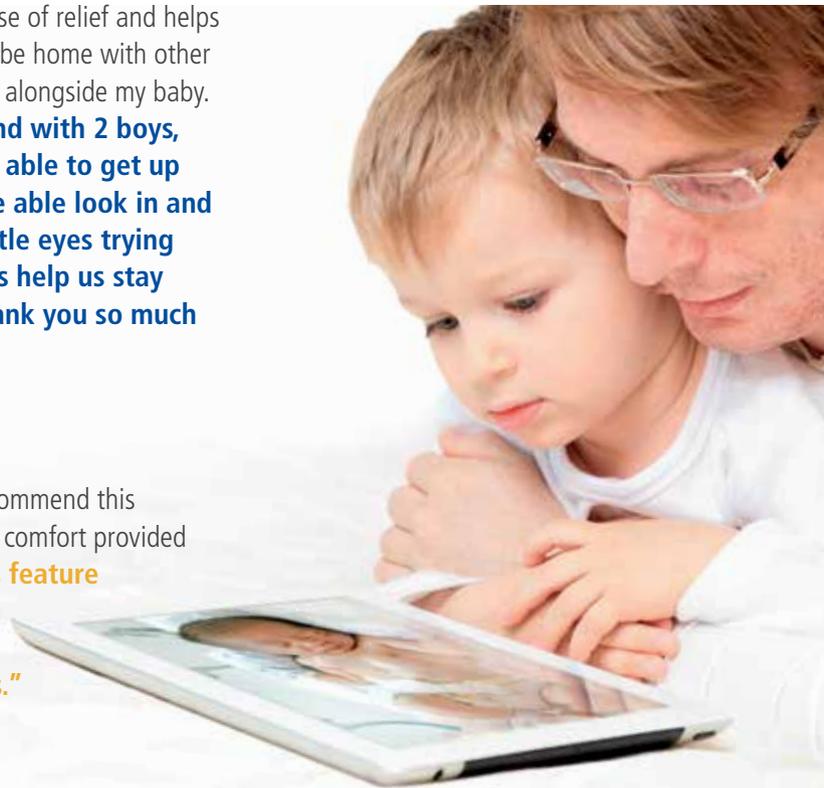

Letitia, Columbus, OH

I feel more positively involved with the whole family because of the opportunity to see the baby via the NICVIEW 2 camera. **"When I saw on the news last week that they had installed these cameras, I thought wow pretty cool. Little did I imagine in my wildest dreams that I would ever have use for them. Well my first grandchild arrived on Saturday and this has been a saving grace for our entire family. Just last night I woke up at 2 am and looked in on him. I saw he was fine and went right back to sleep feeling very comforted instead of worried. Technology is amazing and I am extremely grateful for this particular one!"**
