MiniMuffs®
Neonatal Noise Attenuators

For those little ones in need of some peace and quiet...

Designed specifically for premature babies, MiniMuffs noise attenuators protect their sensitive ears, and provide a safe environment for healthy development.

- Reduces disruptive noise associated with transfer of infants to different hospital units and provides quieter environment during transport in emergency vehicles.

**PROVIDES A “QUIET HOUR” FOR PREMATURE BABIES IN THE NICU**
- Helps meet American Academy of Pediatrics guidelines for safe noise levels in the NICU
- Reduces sound levels by at least 7 decibels (dB)
- Results in a reduction of sound pressure level of more than 50%

**IDEAL DURING SPECIAL PATIENT CARE PROCEDURES AND TRANSPORT**
- Protects the sensitive ears of babies under ventilation
SAFE AND COMFORTABLE

- Fits comfortably around the baby’s ears with a soft foam oval-shaped design and gentle hydrogel adhesive
- Meets infection control standards through single-patient use design

Reduced noise levels are clinically demonstrated to positively impact infant state. By reducing noise levels, MiniMuffs noise attenuators result in potentially longer periods of sleep time, optimal oxygenation and improved physiological stability.

THE MINIMUFFS NEONATAL NOISE ATTENUATORS PACK INCLUDES:

- 36 individually wrapped pairs
- Complete Instructions for Use
