

# Introducing mHEAR™ Newborn

A MANAGED SOLUTION SERVICE FOR THE NHSP

otometrics

# FOCUS ON PATIENT CARE AND LEAVE THE REST TO US

mHEAR Newborn is a managed solution service from Otometrics and our Simply Closer way of working. Now you can access the latest newborn hearing screening technology without the high cost of investing in new equipment. mHear Newborn enables you to focus on what's important – patient care.

## **Managed services has never been easier**

mHEAR Newborn delivers comprehensive service for one simple price. mHEAR Newborn covers the screening solution, installation, training, consumables, calibration and maintenance to support your National Newborn Hearing Screening Programme. You pay for every baby screened – irrespective of the level of screening given to the baby. With mHEAR Newborn you can:

### **Improve workflow**

mHEAR Newborn provides the latest in hearing screening technology. Perform a combined TEOAE and AABR test using MADSEN AccuScreen® from Otometrics – the most trusted newborn hearing screener in the world. Choose from a wide variety of coloured and transparent ear tips and electrodes. The mHEAR Newborn comprehensive coverage means minimal downtime and immediate access to qualified support when you need it.

### **Control costs and reduce risk**

mHEAR Newborn gives you financial control and helps reduce your risk. Rather than investing in new equipment, you pay per screen. Each newborn screen you perform includes consumables, annual calibration and repair.

### **Boost the quality of patient care**

mHEAR Newborn gives you a cost-effective way to improve the quality of patient care. With comprehensive service and support – and the latest in hearing screening technology – you can focus on your patients and leave the rest to us.

# mHEAR™ Newborn
