

## Smart technology for a very smart price

### Transform the way you provide hearing care today

The award-winning Otoscan® from Natus is the simple solution that provides quick and accurate digital ear scans with the ability to securely send files to the hearing instrument manufacturer or earmold lab of your choice. Otoscan streamlines the process of producing custom in-the-ear pieces such as earmolds and hearing aids with our protected Otocloud® digital filing portal for all your patient scans. When you purchase Otoscan with Natus' FlexSelect subscription program, managing your business becomes easier. Patients enjoy a cleaner, safer procedure without the need for silicone while you can enjoy an easier way to do business.

### Natus FlexSelect advantages

Natus has introduced a new way for clinics to raise their standard of care without raising concerns about the budget. Introducing FlexSelect – our new bundled subscription program that gives you access to industry-leading equipment and solutions to help increase your bottom line.

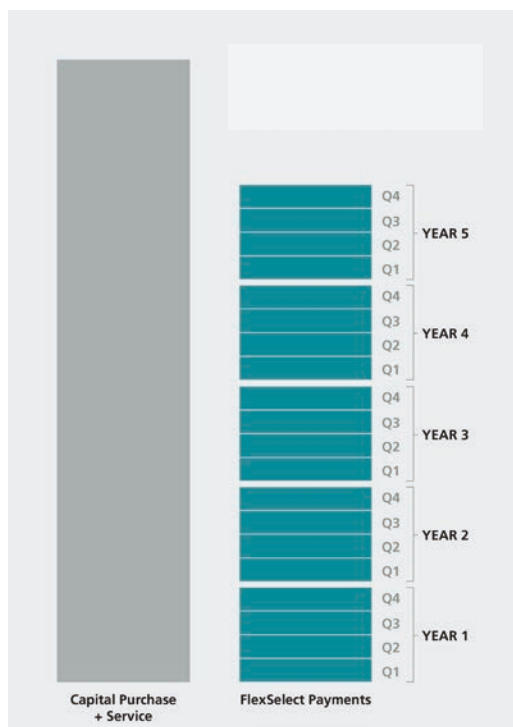

The program combines Otoscan, Otocloud, Service and Education, providing unlimited access to:

- the most advanced hearing technology available (with new equipment offered every five years)
- the latest version of software for optimal workflow efficiency
- the highest level of personalized customer service and support
- advanced clinical training including product training and industry networking opportunities

### Achieve a higher standard of care through controlled spending

Natus offers FlexSelect subscription plans for our complete portfolio of industry-leading products. No matter what your goals are for your practice, Natus is here to help ensure consistent high performance and simplified billing, helping you continuously deliver a higher level of care without straining your budget.

Software upgrades across the term may be included in the subscription, where applicable.

### Hear what your colleagues in the industry have to say about Otoscan

“Otoscan has changed the game in my practice. Scanning is not only quicker and less messy than traditional impressions, but it adds a professional quality and coolness factor to the patient’s experience.”

Dr. Elizabeth Welch with Hearing Services of Franklin, TN

“Otoscan allows us to capture the exact curvature of a patient’s ear, its texture & elasticity. It’s accurate, precise, efficient, and a more comfortable fitting for the patient.”

Dr. Esther Fogel, Comprehensive Audiology, Lynbrook, NY

### Training and support

With convenient quarterly payments over a five-year period, you can impress your current customers with the latest technology in the market and attract new ones. Let Otoscan + FlexSelect get you there.
