

Transform the way you deliver patient care

Otobase is the **scalable software solution** that **easily integrates patient data** from the products you already have in your clinic. This includes Natus equipment as well as all other major audiology brands. With a familiar user interface for **improved workflow efficiency**, Otobase seamlessly merges with all Noah-compatible* equipment, easily connecting your devices to electronic medical record (EMR) systems. Eliminate the need for costly manual data entry. Automatic data transfer frees up time, helping you to better focus on patient-centered care.

The EMR integrated solution

The key to transforming the way you deliver quality patient care is through the power of integration. When you choose to integrate multiple instruments, the benefits really begin to multiply.

- **Streamlined information sharing**
Utilizing GDT and HL7 interfaces, Otobase streamlines data handling from major brands of audiology equipment to the EMR system.
- **Secure data handling**
Otobase manages data while remaining HIPAA and GDPR-compliant, ensuring quick and secure data transfer.

**Supports the Noah version 4.13.*

Workflow efficiency

Otobase provides a familiar user interface and easier access to your patient reports. These workflow improvements mean less time spent on training and more time spent on your patients.

- **Easy-to-learn interface**

Experience a fast introduction of Otobase into your facility with no delays in learning a new interface. If you are familiar with Noah, you will easily become familiar with Otobase with its similar look and feel.

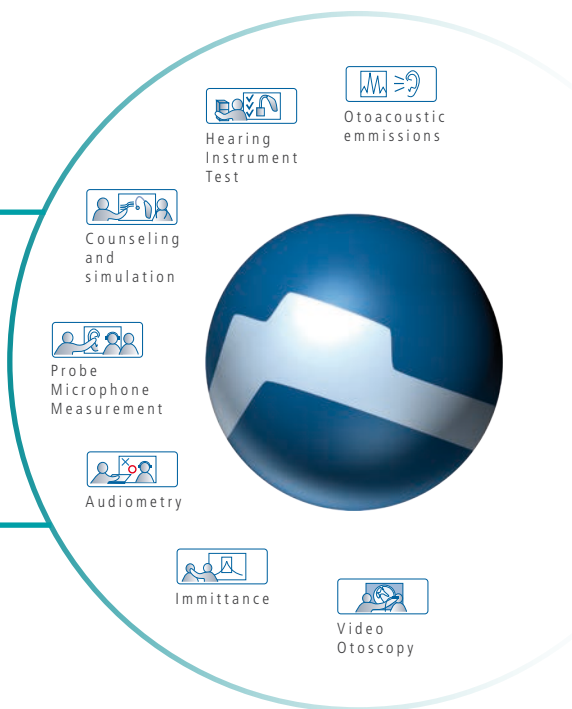

- **All-in-one access to reports**

Otobase transfers reports as PDF files into the EMR system, eliminating the cumbersome printing and manual scanning process. All previous reports are accessible in Otobase to obtain a comprehensive picture of the patient's clinical history.

Scalable solution

Otobase is the EMR system solution that grows with your practice. Expand with additional user licenses at any time with minimal disruption to your daily routine. Otobase delivers high-performance transfers, independent of the amount the data.

Otobase is compatible with all major audiology equipment and systems, integrating easily with the instruments and systems you already have.
