OTOsuite® REPORTS gives you a powerful way to create professional-looking reports. OTOsuite REPORTS is a software tool used to create custom report templates quickly and easily. With OTOsuite REPORTS, you can:

- Change and customize existing report templates.
- Create new templates and layouts.
- Add signatures.
- Create customer-facing reports and brand yourself and your clinic.
- Import data from any equipment via a PDF file.
- Complete your report as you test.

OTOsuite REPORTS is familiar and easy to use – it works just like Microsoft Office programs such as PowerPoint. And, if you have OTObase, the Otometrics database, you can use data from any Noah-compatible instrument in your clinic to make reports.

Create the report you want today – with OTOsuite REPORTS.

Consistent, professional reports – when you need them

Now you can create consistent and professional reports unique to your clinic easily with OTOsuite REPORTS. Powerful yet easy-to-use customization tools enable you to design, create and share the reports you need quickly.

One report solution – unlimited possibilities

OTOsuite REPORTS works across your hearing care clinic, and with all your Noah-compatible Otometrics equipment. Use data from your hearing care equipment to create comprehensive standardized reports. And, if you use OTObase®, the Otometrics database, you can create standardized reports using data from all your devices – regardless of manufacturer.

Personalize your communication with easy customization tools

OTOsuite REPORTS makes it easy to create the reports exactly as you want. OTOsuite REPORTS works in a similar way to Microsoft Office applications, such as PowerPoint. Create a report using an existing template or design a new template – OTOsuite REPORTS enables you to create reports unique to your clinic.

Increase efficiency across your clinic

OTOsuite REPORTS empowers everyone in your clinic to create professional reports efficiently. Unique dynamic reporting functionality enables you to fill in data as you complete each test. This means it’s easy to have a complete picture of the test results and see if you have completed all the tests required.
